Sharing the Gospel With Others: Developing Confidence and Competence in Sharing Your Faith

Led by: Robert Bowen

Description

Do you struggle in sharing your Christian faith with others? You are not alone - research shows that a majority of people who call themselves Christians fail to share their hope in Christ on a regular basis. Nonetheless, Christ has called the church to make disciples, and we cannot do this without knowing how to share the Gospel. Join us for this 6 week practical workshop where you will be encouraged to overcome your fear and share Christ with others as we seek to develop confidence and competence in evangelism.

Week 1 - The Heart of the Gospel

Hear the glorious Gospel and discuss the key components of a Gospel presentation including our status before Christ, the gift of the cross, and how we receive this gift.

Week 2 - Gospel Details

Dive into the details of the core Scriptures to use when sharing the Gospel. Study the examples of Jesus when he shared the need for a Messiah.

Week 3 - How to Share the Gospel

Review some of the most popular techniques for sharing your faith with others including Gospel tracts, Way of the Master, FAITH, etc. Discuss the best practical approaches for various situations.

Week 4 - Gospel-Centered Perspectives

Learn how to change your mind to be more Gospel-centered including improving your awareness and obedience to share with others. Discuss successes, failures, and opportunities to grow.

Week 5 - Gospel-Centered Lifestyles

Learn how to change your behaviors to be more open and available to Gospel-centered conversations including intentional and casual interactions with others. This week will include a field trip to practice what we have learned.

Week 6 - Wrap-up, Practice, and Celebrate

This week will primarily be focused on sharing our faith with others and celebrating how God has changed and encouraged us.
